## Alex Cisneros

Kind, determined, and a go-getter. These few words only partially describe Alex Cisneros. Alex is a Santa Ana native who has lived in various parts of Southern California. He attended Garden Grove High School and Marie L. Hare Continuation High School during his junior year. After graduating from Garden Grove High School, Alex enrolled and attended Golden West College as a Biology major. However, after some reflection, self-exploration, and a newfound passion, he ultimately decided to pursue his bachelor's degree in psychology.

During Alex's two-year community college journey, he has faced several hurdles and challenges as a first-generation college student. These challenges included navigating an unfamiliar higher education system, balancing work and studies, and overcoming financial struggles. He is the first person in his family to attend college and has earned four Associate in Arts degrees, three certificates, and much more. His journey exemplifies the resilience and determination needed to overcome adversity.

He plans to attend UC Berkeley in the fall, where he will pursue his bachelor's degree in psychology and minor in education. In the future, Alex plans to earn his master's degree and become a high school counselor for his continuation high school. His achievements, progress, and dreams would not be possible without the support programs available on campus, his community, and most importantly, his mother.

## Dr. Shawn M. Taylor

### Department Chair, Mathematics & Engineering

Dr. Shawn M. Taylor's story embodies resilience, determination, and a passion for both academia and the arts. Born and raised in Huntington Beach, California, he faced challenges early on, navigating life with a visual impairment and his father's passing at the young age of eight. Despite setbacks, Shawn graduated from Marina High School in 1998, where his struggles in mathematics contrasted with his love for music. Upon graduating high school, Dr. Taylor earned the rank of Eagle Scout in the local BSA Troop 227.

After a brief stint at GWC pursuing music education, Shawn found his calling as the Assistant Band Director at Marina High School in 1999. Immersed in music composition and teaching, he also explored his passion for audio recording and production through GWC's recording arts program. However, a realization dawned that, while fulfilling, his role as a band director wasn't his long-term path.

Returning to GWC in 2003 with a newfound determination, Shawn embarked on a journey into mathematics, starting from the basics and progressing steadily through various math courses. Inspired by his high school experiences and fueled by a newfound love for teaching, he aspired to become a math instructor. Balancing his academic pursuits with diverse coursework in philosophy, physics, and other subjects, Shawn discovered a passion for learning and critical thinking. With determination and support from peers, he found academic success and forged lifelong friendships.

Earning his AA degree in 2006, Shawn transitioned to California State University, Long Beach, majoring in mathematics, earning his bachelor's degree in pure mathematics in 2011. Undeterred by challenges, Shawn pursued a master's degree at CSULB, graduating in 2015. With his academic achievements in hand, he fulfilled his dream of becoming a professor at GWC, where he started as a part-time math instructor before becoming a full-time faculty member in 2019.

Amidst the challenges of the COVID-19 pandemic, Shawn pursued his next dream of earning a doctorate in Educational Leadership at USC, supported by his wife, Dr. Erin Craig. Completing his dissertation in 2023, Shawn was elected as the department chair of mathematics at GWC, embracing the opportunity to lead and inspire others.

Beyond academia, Shawn's involvement in the award-winning music group, the Simpkin Project, showcases his creative spirit and collaborative endeavors. With over five hundred performances across the United States, several critically acclaimed albums, and ongoing musical endeavors, the Simpkin Project continues to thrive, reflecting Shawn's commitment to artistic expression and community engagement. Alongside his academic pursuits, Shawn continues to utilize the skills he acquired in the GWC recording arts department by producing and recording musicians in his home studio over the past two decades, producing over 50 full-length albums and dozens of singles.

# ACADEMIC COSTUME

In the 12th and 13th centuries students wore habits, or cloaks with hoods, which were designed to provide warmth in unheated buildings. The more colorful modern academic costume, worn more for its symbolism than for any practical purpose, originated at Oxford and Cambridge universities in England in the 1300s, and has been continuously in use in the United States since colonial days.

The mortarboard cap represents no particular degree or school, except that the short, gold tassel is worn only by holders of the doctoral degree. The tassel may be worn on either side of the cap, or wherever the wind places it! The gown itself is usually black for all holders of baccalaureate or higher degrees. Bachelor's and master's degree styles differ little, but doctoral gowns are faced with velvet panels down the front and velvet bars on the bell-shaped sleeves. Only the hood itself shows by its length and colors the distinctions among degrees, academic majors, and colleges or universities which conferred the degrees. The higher the degree, the longer the hood and the wider the velvet facing which outlines the hood: bachelor's, master's, and doctor's hoods are three feet, three and one-half feet, and four feet long, respectively. In addition, the velvet trim is two, three, or five inches wide (narrowing only around the neck) in the same order of degrees. The color of the velvet facing denotes the academic area in which the degree was awarded, as listed below. The colors of the satin lining in the hood are the school colors of the institution where the degree was awarded (e.g., University of California colors are blue and gold, and the University of Southern California's, maroon and gold). Only the doctor's hood also includes panels with narrow satin piping.

Velvet "Field" colors, which symbolize academic areas of study, are as follows:

Arts, Letters and Humanities	.....	White
Business	.....	Drab
Economics	.....	Copper
Education	.....	Light Blue
Engineering	.....	Orange
Fine Arts and Architecture	.....	Brown
Journalism	.....	Crimson
Law	.....	Purple
Library Science	.....	Lemon
Music	.....	Pink
Nursing	.....	Apricot
Philosophy	.....	Dark Blue
Physical Education	.....	Sage Green
Science	.....	Golden Yellow
Speech	.....	Silver Gray
Theology	.....	Scarlet

**Golden West College tassel colors represent:**

- **Green — AA Degree**
- **Gold — Certificate of Achievement**
- **Green and Gold — Receiving both an AA and Certificate**
